

Re: Low Power FM (LPFM)
Proceeding: 04-233

K-LOVE

Sirs:

I am writing to add my comments on the LPFM portion of the Localism campaign.

My family and I have been supportive users of the K-LOVE radio network for the last several years. We enjoy the ministry and general programming very much, and use the several translators throughout the Yuba City, Sacramento (including Davis) areas, as well as the San Francisco Bay Area as well.

K-LOVE serves our listening area by providing Christian-based music, conservative news, as well as areas of compassion that my church uses in their local ministry.

There is no other radio ministry in our immediate area that would serve as a substitute if the K-LOVE translators were displaced by other LPFM broadcasters

My family believes that the public interest is being served by K-LOVE through their family-based programming, through reasonably balanced news, and generally through their positive loving programming. There are thousands of non-Christians who enjoy their upbeat programming as well

Obviously, K-LOVE is doing something right if they are continuing to grow and improve their public listening audiences.

Sincerely,

Steven C Shepard
